

# PIN TEMPLATES BUNDLE 01

Your mini bundle of pin templates are ready and waiting for you to download. Click the link below and you'll be asked to import your templates into Canva. Once there, you can edit the templates and add your own colours, your own image, change the text and update the logo and website name. Save them as a template if you have Canva Pro, or save into your designs on the free version. When you need to use them again, simply copy the design and edit, leaving the original intact.
